## PERSONAL PROJECTS

### React ecommerce frontend (2024) ( [Live](#) / [Code](#) )

- Fully **responsive** e-commerce website using **React**, **React Router DOM**, and **CSS modules**.
- Implemented essential features such as **product filters**, **search filter**, **wish list**, and **shopping cart**.
- Utilized **useReducer** with **Context API** hooks for efficient state management.
- Implemented error handling, including an error page for route errors.

### Recipe sharing MERN stack app (2024) ( [Live](#) / [Code](#) )

- Fully responsive full stack web app made using **react**, **tailwind**, **node + express & mongoDB + mongoose**.
- Implements **password hashing**, **user authentication**.
- Allows user to **update profile**, perform (**create**, **update**, **delete**) operations on recipes, **rate** and **comment** on other user's recipes, **save** recipes and **search** for recipes.

## WORK EXPERIENCE

### Accenture Solutions Private Limited (Feb 2022 – July 2023)

#### Application Development Associate

- Was involved in evolution of CI/CD pipeline.
- Helped in modernizing the existing automated **Azure Cloud** deployment process.
- Work exposed me to various Azure Cloud deployment components such as **virtual machines**, **app services**, **virtual networks**, **network security groups**, and **subnets**.
- Earned the **Azure certification AZ-900**.
