PROJECTS

Recipe sharing MERN stack app (2024)   (Live / Code)

- **Fully responsive** full stack web app made using **React, Redux, Tailwind CSS, Node + Express, MongoDB + Mongoose**.
- Implements **password hashing, user authentication**.
- Allows user to **update profile**, perform (**create, read, update, delete**) operations on recipes, **rate** and **comment** on other user's recipes, **save** recipes.
- Also implements an **autocomplete search box** from scratch for recipes.

Furniture ecommerce react app (2024)   (Live / Code)

- **Fully responsive** e-commerce website using **React, React Router DOM**, and **CSS modules**.
- Implements essential features such as **product filters, search filter, wish list**, and **shopping cart**.
- Utilises **useReducer** with **Context API** hooks for efficient state management.
- Implements **error handling**, including an error page for route errors.
